Lisbon, Portugal

SUMMARY

I am a front-end developer with expertise in AWS cloud computing. Skilled in HTML, CSS, JavaScript, and frameworks like React and Angular, I create user-friendly web applications. My knowledge of AWS services such as EC2, S3, and Lambda allows me to build scalable, secure, and high-performing applications, seamlessly integrating front-end solutions with cloud infrastructure.

EXPERIENCE

Software Engineering Intern

Zoi

07/2024 - Present Lisbon, Portugal

- Transitioned website data management from Google Sheets to a web-based API solution, improving efficiency and scalability using DynamoDB and S3 bucket.
- Designed and developed websites for ZOI clients from concept to deployment, ensuring a seamless user experience and meeting client requirements.
- Developed a food ordering app from scratch, utilizing a full DevOps workflow with Angular, Terraform, HTML, CSS, SQL for database management, and Material UI for frontend design.
- Developed dynamic features for both mobile and desktop platforms using HTML, CSS, TypeScript, and JavaScript, ensuring responsive and user-friendly interfaces.
- Developed a serverless notebook app with SST V3, enabling users to store and manage historical notes.
- Utilized modern serverless architecture to ensure scalability, performance, and efficient data storage.
- Mastered AWS Lambda, DynamoDB, and S3 to design and implement efficient cloud-based solutions, optimizing performance, scalability, and cost-effectiveness.
- Enhanced internal project functionality by implementing innovative cloud-based solutions, improving system efficiency, scalability, and overall performance.
- Secured data integrity and access with AWS IAM and encryption practices.

Frontend Developer

Frontend Mentor

2024 - 07/2024 Lisbon, Portugal

- Developed a responsive three-column preview card component using HTML and CSS, ensuring a clean, flexible layout adaptable to various screen sizes.
- Designed and implemented a social code section to showcase and test layout skills, demonstrating proficiency in creating visually appealing and functional UI components.
- Troubleshooted and resolved front-end technical issues promptly, ensuring minimal disruption and adherence to project timelines.
- Leveraged HTML, CSS, and JavaScript to design and develop visually appealing, responsive web pages that aligned with client specifications and requirements.
- Developed a custom web player for personal use during projects, enhancing productivity and streamlining media management.
- Developed user-friendly web forms with validation and error handling.

SKILLS

| HTML | AWS | CSS |
|------------|-------------|------------|
| AWS Lambda | Python | SQL |
| Terraform | Material UI | DynamoDB |
| SS3 Bucket | TypeScript | SST |
| Git | Linux | JavaScript |
| | | C |
| Azure | Angular | |

SOFT SKILLS

Adaptability and Flexibility

Creativity and Innovation

Deadline Adherence

Attention to detail

Active Listening

Teamwork

Critical thinking

PASSION

Coding

Passionate about exploring new technologies and solving complex problems through coding.

Cloud Computing

I like cloud computing because it offers flexibility, scalability, and cost-efficiency.
